Dear Dr. Manfred Bischoff,

Thanks for your kind assistance. Through your organization the school has received some **JA\$381,956.84** in building materials from the Boswell Hardware Company Limited. These materials will be used to construct a classroom block.

This classroom block will be used to house one classroom along with a Computer/Resource Room. All this was made possible through your donations. Again we would like to thank your organization and especially Mr. Werner Troeder for his hard work in assisting the school.

Thanks again for your kind support.
